### Who We Are

Cabrera Services, Inc (CABRERA) is an industry leader in engineering and remediation services for radioactive, hazardous, toxic, and MEC/UXO sites. Since its founding, CABRERA has distinguished itself through innovative problem solving, dedication to our clients' interests, and top quality deliverables.

### What We Do

At CABRERA, we pride ourselves in understanding our clients' needs and providing highly qualified management and technical teams to best serve those requirements. We further serve our clients' needs through the application and integration of state-of-the-art technology and advanced scientific methods in support of engineering design, environmental protection/preservation, characterization and analysis, remedial action and site restoration.

Our extensive knowledge and experience with a range of federal, state, and local regulatory environments has resulted in successful site closure and decommissioning at over 30 individual sites nationwide. CABRERA holds a current NRC Broad Scope License.

### How We Do It

CABRERA consistently maintains the cost, schedule and quality expectations of its clients. CABRERA has earned numerous awards and commendations from clients for superior performance and innovative and cost saving solutions. CABRERA has achieved a 95% Repeat Business Rate since its founding.

**A SBA-certified small disadvantaged business**
